

PROJECTION PACKAGES

APPLICATIONS:

- Concert Tours
- Award Shows
- Electronic Scenery
- Corporate Staging

For large auditorium and arena shows we offer Christie Roadies with dazzling Digital DLP technology. With an output of 10,000 ANSI Lumens, this series produces crisp, brilliant pictures. We also offer LCD projection packages that are more cost effective. The Sanyo XF-45 projectors, with a 1100:1 contrast ratio, are extraordinarily bright at 10,000 ANSI Lumens and the Sanyo XF-20 are always reliable at 5,000 ANSI Lumens.

In addition to projectors, we provide plasma screens and LED video walls for tours and rental. Touring Video can accommodate any of your visual needs and will tailor a custom package to meet the requirements of your show or tour.
